

Biogeografía: Bulletin of the Systematic and Evolutionary Biogeographical Association

Biogeografía is a forum for students, scholars and academics of biogeography to express their ideas and views about current or past issues in the discipline. We especially encourage students and young researchers to submit ideas for general articles and points of view on topics in biogeography, or about the projects with which they are currently involved. Contributed works should be written in an easily accessible and popular style. We look forward to your contributions.

Editorial Policy

Biogeografía has an editorial policy in order to ensure that the copy we receive is of high quality and relevant to the interests of our readers. We wish to ensure authors that they are welcome to submit ideas for articles or news pieces but also take into account that:

- *Biogeografía* publishes articles in three languages (English, Spanish and French) and all its editorial content in English.
- *Biogeografía* does not intend to publish original research papers and is not peer-reviewed
- *Biogeografía* requires articles to be written in an easily accessible popular style
- articles may cover any aspect of biogeography, and may include reviews, opinion pieces and book reviews

Guide for Authors

Biogeografía publishes six types of articles:

Lead articles – on current topics in biogeography (max. limit 3000 words).

Focus articles – on historical events, revisions of theoretical ideas or short biographies (max. limit 3000 words).

Forum – opinion pieces on any topic in biogeography (max. limit 3000 words).

Book Reviews – usually invited, but we will consider reviews of old classics or favourites (max. limit 1000 words).

If you have been invited to contribute an article please submit your manuscript as an .odt, .rtf or .doc. We ask authors to only use a **Primary** (bold) and *Secondary heading* (italic) after the TITLE HEADING (in capitals).

Citations

All citations are to be made **without** using commas between author and year (Wallace 1855) and commas between multiple authors (e.g. Nelson & Platnick 1981, Brandon-Jones 1998). The ‘&’ symbol is used in all citations (but not in the references). Please refer to this issue for further usage of figures (see figure 1), tables and numerals.

References

Please include the full titles of journals and books. Do not use abbreviations! Please keep your references in the styles listed below.
